Executive Summary

An experienced Software Engineer with a demonstrated history of working in the Technology industry, I bring a business-oriented mindset to my technical expertise, with a deep understanding of the complexities of software engineering, computer security, artificial intelligence methods, and immersive tech development.

With a focus on continuous improvement and a customer-centric mindset, I am dedicated to achieving business success through the delivery of high-quality, innovative products that exceed customer expectations. I am committed to adding value to the End-Product through subjective assessment and comprehensive analysis.
